## THE STATE OF NEW HAMPSHIRE

---

To the inhabitants of the Town of Pittsburg in the County of Coos in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at Town Hall in said Pittsburg on Tuesday, the Tenth day of March next, at ten of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.
2. To raise such sums of money as may be necessary to defray town charges for the ensuing year and make appropriation of the same.
3. To see if the Town will vote to accept State Aid.
4. To see if the Town will vote to accept the Budget.
5. To see if the Town will vote to build a suitable building for snow plows and other Town Machinery, and raise money for same.
6. To see if the Town will vote to buy a truck and snow plow and raise money for same.
7. To see what action the Town will take to supply water for the Lower Village.
8. To raise such additional sums of money as may be necessary for highways and bridges.

TOWN REPORT

9. To see if the Town will vote to discontinue any unnecessary highways.
10. To transact any other business that may legally come before this meeting.

Given under our hands and seal, this twenty-first day of February, in the year of our Lord nineteen hundred and thirty-one.

ARTHUR SCOTT,  
LEONARD A. HAWES,

Selectmen of Pittsburg

A true copy of Warrant—Attest:

ARTHUR SCOTT,  
LEONARD A. HAWES,

Selectmen of Pittsburg

# Budget

# Report of Superintendent of Schools

---

It is customary for the Superintendent of Schools to issue the so-called annual report to become a part of the town report, for the use of voters at the annual meetings of town and school in March.

On my arrival in Pittsburg last July to assume my duties as Superintendent I found all teaching positions filled, supplies ordered for the coming year, and data at hand in the form of reports to serve as a guide in business and educational matters for a continuance of the organization of school procedure in Pittsburg. This systematic arrangement made it possible for a new man to enter at once in an acquaintance with his duties, to affiliate himself with the School Board and with citizens having particular interests in the schools.

The School Board had already made plans to take advantage of the summer vacation for making repairs on some of the school buildings.

Accordingly this repair work was begun at the Danforth School which was painted inside and out, rooms newly ceiled with metal ceiling, desks renovated and varnished, new plumbing installed sufficient to make running water available the year round, windows protected with wire netting on frames, toilets put in good condition and flag pole newly placed and equipped with rope. The stoves were also newly set and the whole building cleaned and put into first class condition.

Some changes were also made at the high school by connecting the drinking fountains with the new town water main and by putting on new metal roofing on the big woodshed.

The manual training room in the basement was somewhat enlarged, two new benches and some new tools were also furnished for a larger class of boys.

## TOWN REPORT

The Domestic Art classes in cooking and sewing have continued to meet twice a week in the social rooms of the church.

At the beginning of the year the schools seemed to be well equipped with books in good condition and we have planned to keep this condition good and to supplement books and equipment with new when necessary as well as to repair equipment out of order.

All the buildings seem to be in good order, kept neatly through the efforts of efficient janitors aided by painstaking teachers often helped by the boys and girls who are doing their part, also, to keep all the school property in good repair.

The Pittsburg high school has an excellent record as compared with other high schools in New Hampshire. The pupils have succeeded admirably in tests put out among all the high schools by the state, standing among the highest in their attainments and highest in attendance. This is prima facie evidence of good management and of good teaching. The special forms of plays and games after school hours on the school lawn as well as basket ball practice and games is the best evidence of participation by most pupils in healthful exercise and inspiring morale.

We find that we must have sound bodies in order to retain the blessings of alert and active habits of mind.

The town has continued to vote aid in transportation for high school pupils coming from a distance. The amount expended by the school board for such cases is still far below that originally voted by the town.

What is used for this purpose seems to be money well spent, for it makes it possible for many to attend the high school who could not otherwise attend. Money devoted to the maintenance of a good high school in Pittsburg cannot be used for any other so good a purpose. Progressive and prosperous communities reach the beginning of their uplift in many instances to their strong support of elementary and high schools.

There is slight fluctuation in numbers or in expense. There have been 43 pupils enrolled at the Danforth school including both rooms, 14 at Indian Stream,

## TOWN REPORT

37 in the Junior and Senior high school and 48 in the two other rooms of the village school.

Of the teaching force, Miss Mildred Manseau, Miss Eunice Fiske, Miss Frances Munn, Miss Mildred Blodgett, Miss Ethel Knapp, are all graduates of Plymouth Normal school. Some attended two years, others four years.

Headmaster Albert P. Knightly is a Bates College graduate of the class of 1926. Miss Anna Johnson is a graduate of the Castleton, Vt., Normal, and Miss Lila Lucas a graduate of the Johnson, Vt., Normal school.

I take this opportunity of expressing my deep appreciation of the interest shown by Pittsburg parents and citizens in the work and attendance of their young people in the schools. Every effort in this direction is a wonderful help to every boy and to every girl and we hope the school will be able to retain this good support.

I am also grateful for favors received in the process of becoming settled in a new community and I hope that a conscientious devotion to duty will merit a continuance of such appreciation.

ARTHUR D. WIGGIN,

Superintendent of Union Dist. No. 57

## TOWN REPORT

### REPORT OF THE DISTRICT NURSE

---

The third annual report of the Pittsburg Public Health Nursing Association shows a real growth in all branches of the work. During this year 405 patients have received treatment necessitating 2,444 visits. The nurse has assisted with 19 maternity cases; 24 surgical operations; done first aid in 47 accident cases; taken 4 fracture cases to physicians; and been of help at 8 death beds. There have been many cases of serious illness where it was necessary to stand by until private nurses could be secured and even then work with the private nurses to help bring the patient safely through. In all 3276 1-2 hours were spent in attending to sick calls, besides 747 1-2 hours were devoted to school work.

The school work this year shows the most gratifying results. A real spirit of cooperation has put the school children of Pittsburg into a very good condition to stand the health hazards of life. Although, through carelessness, a wholesale exposure caused 150 children to succumb to the epidemic of measles, there were no deaths and fewer really serious sicknesses than statistics of Health Authorities would lead us to expect.

The results of the medical examinations show an excellent record. Among 159 pupils examined 220 physical defects were found, of which 116 have already been corrected this year. This shows that 52% of the physical defects have been promptly eliminated by the parents and not put off until another time. Of the 159 pupils looked over, 76 pupils were found to be without the handicaps of correctable defects. More children are being added daily to this list as they have their teeth put in good order, or infected tonsils removed, or malnutrition corrected by better planned meals resulting in an increase to a more nearly normal weight. When a child is within 10% of normal weight for his age and height, he is considered normal. Among this group of children there were 31 cases of defective vision all of which have now received attention. There were 75 children with defective teeth, 42 of whom are now properly cared for. Of 45 tonsil cases there are yet 34 to receive attention. Only 11 cases were operat-

## TOWN REPORT

ed upon. By far our most serious school health problem is to get the tonsil work done. Pupils with diseased tonsils should not be neglected, above all others. In so many instances, during this past year, the cases where the real life and death fights with disease have been necessary were with children handicapped by this most hazardous defect. Experience shows that these handicapped children run a very heavy risk at all times and their names should automatically be put on a danger list on our health records. It seems that both the relative expense and the fear of this operation has kept many from being done. However neither of these reasons stand in the way of a needed appendix operation and in most instances infected tonsils are as treacherous as a diseased appendix.

Because it was found so satisfactory last year, the weekly dental clinic program has been continued with increasingly good results. Seventy-six school and pre-school children have availed themselves of the opportunity. They have been carried free to Colebrook where all necessary work was done at a rate of \$3.00 an hour, making the work much cheaper than by private appointment. Since last January these 76 children have had thorough dental examinations to survey the extent and nature of the work necessary to put their mouths in the best possible condition for the best growth and care of second teeth. As a rule it is not found to be expedient to fill baby teeth if they are due to come out in a short time. Most of the attention is put upon the permanent teeth. During the year there were 433 fillings, 79 extractions, 61 cleanings, 12 treatments at a total expense of \$321.25. This has averaged but 48 1-2 cents per operation. As soon as a program of examination by the dentist every six months has become a routine part of school health work, fifteen or twenty minutes work will be all that will be necessary to keep the average child's mouth in excellent condition, thereby making long painful sessions unnecessary. Strange as it may seem, the majority of the children look forward to their trip to Colebrook with pleasant anticipation.

We were honored twice this Fall by being the first town in the state to have the new scientific hearings

## TOWN REPORT

tests with the audiometer and to have the first opportunity to use the newly organized state eye clinic. Among all the pupils tested with the audiometer, only nine were found to be really deaf. In most cases these children had infected tonsils or gave histories of previous throat, nose, or ear troubles. Dr. Ingalls, one of the leading specialists in New England, gave a most thorough eye examination to all children who showed signs of defective vision and who had not previously had eyes fitted. This takes care of just 100% of our defective vision cases. The most thorough up to date method of eye tests were used by this specialist, who has an extensive experience with the latest discoveries through his special studies in Germany. A retinoscopic dark-room method of examination with the pupils of the eyes dilated with an atropine ointment, as well as the usual subjective methods were used. The results justified this most modern method. We should consider ourselves very lucky to have had the opportunity to have the services of this man.

Last winter all the schools in town had hot lunches served during cold weather. This year all except the village school are having this privilege. A survey showed that only a handful of the children of this school desire this accommodation this year—too few a number to make it advisable. The children taking hot lunches during the winter months show decided benefits in nutritional gains, in keenness of mind, in lessened fatigue, in weight increases, and in increased resistance to cold infections. These lunches are planned with special emphasis upon vitamin content as well as upon the highest possible nutritive value. Well planned diets seem to be our weakest point in home hygiene. Poor eating habits of the children naturally follow.

The emphasis in Public Health work should not all be put on the bedside cases and acute emergencies, any more than all school work. The babies and preschool children, as well as prenatal patients deserve their share. Many feeding problems have been straightened out for the babies. Suggestions on the most up to date care of these tiny folks as well as the latest literature from our State Board of Maternity Infancy and Child

## TOWN REPORT

Hygiene, has been welcome in many homes. The preschool children have been welcome participators in all school clinics. Many of the smaller children have had dental work done, either going alone or with the nurse or accompanied by parents. They behaved as well as the older children. They are always welcome. Necessary work done at this time saves dollars and suffering later on. Most of these children now enter school with all corrective work already done.

Like the infant and preschool welfare work, the prenatal work is all free. Expectant mothers may have regular urine analysis and blood pressure service as well as advice and helpful literature as early in pregnancy as they wish. In more than one case this year, serious complications have been avoided by the knowledge of trouble gained early. It is quite important to safeguard our prospective mothers in all possible ways. Each June, Dr. Kerr of Manchester, assisted by one or more of our local doctors, and Miss Gladys Blasland, our county Infant and Maternity Welfare Nurse, and Mrs. Emma Bigelow, county T. B. Nurse, hold a free clinic in the Town Hall. More than 100 people usually attend this clinic. Mothers and babies receive special consideration. All underweight school children or other children of doubtful health are given thorough examinations. Any adults with any question about their lungs are examined by this authority on chest troubles. This work is entirely financed by the sale of Christmas Seals.

The State Board of Public Welfare, the State Board of Health and the State Board of Education have all had part in the wise administration of our work in the past year. They have taken over the managements of several of our most serious problems, coming under their respective jurisdiction.

The usefulness of the Pittsburg Health work has now been thoroughly demonstrated by three years of experiment. It must now grow or fall on its own merits alone. If it is of sufficient value to the citizens of Pittsburg it will continue to grow. There may be one or two changes to be made to meet the changing problems of the future. The nursing committee is and

## TOWN REPORT

has been facing problems as they come up. Their experience has given them some valuable and practical ideas and suggestions for the future. It has been a great pleasure to work with them.

It will be with real regret that I leave the friends with whom and for whom I have worked for three and one half years. I have the real interests of the future nursing work of Pittsburg at heart, but am convinced that like a healthy infant it will continue to grow no matter who carries on next year and the years after.

RUTH S. LANGILLE, R. N.

### VITAL STATISTICS

---

#### Marriages

January 27, 1931—Harry Lee Day, of Pittsburg, N. H.,  
and Glee Adell Nason, of Colebrook, N. H.

#### Births

Jan. 25, 1930—Mr. and Mrs. Weldon Masters, a daughter.

Feb. 5, 1930—Mr. and Mrs. Stewart Young, a son.

March 6, 1930—Mr. and Mrs. Glen Grover, a son.

April 3, 1930—Mr. and Mrs. Gladstone Bacon, a daughter.

May 26, 1930—Mr. and Mrs. Jesse Young, a son.

June 23, 1931—Mr. and Mrs. Onile Marchassault, a son.

July 9, 1930—Mr. and Mrs. Clifton Clogston, a daughter.

August 18, 1930—Mr. and Mrs. Ivo McKeage, a son.

October 16, 1930—Mr. and Mrs. Isaac Brown, a daughter.

October 17, 1930—Mr. and Mrs. Arthur D. Wiggins, a daughter.

September 15, 1930—Mr. and Mrs. Tom Towle, a son.

November 7, 1930—Mr. and Mrs. Forest Covill, a son.

November 13, 1930—Mr. and Mrs. Stewart Haynes, a son.

November 23, 1930—Mr. and Mrs. Carl Reynolds, a son.

January 6, 1931—Mr. and Mrs. Carroll Crawford, a daughter.

January 9, 1931—Mr. and Mrs. Vernon Hall, a daughter.

January 18, 1931—Mr. and Mrs. Edgar Towle, a daughter.

#### Deaths

March 8, 1930—Bert Ingersoll.

April 17, 1930—Sarah Blanchard.

June 2, 1930—Florence Young.

May 18, 1930—Ella Aldrich.

August 18, 1930—Ivo McKeage, Jr.

October 18, 1930—Helen Dore.

September 21, 1930—Kenneth L. Hall.

November 9, 1930—Charles H. Parks.

October 28, 1930—Adelbert Clark.

December 7, 1930—Edward Scott.
